

# SAFE ON 4 WHEELS RIDING THE U-MOBILITY CARGO!

**Mubea**  
U-MOBILITY

## See and be seen!

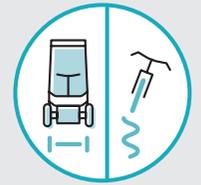

44% of cyclists in Germany do not feel safe in road traffic.

### U-Mobility CARGO's advantage over the two-wheeler:

- better visibility in road traffic during the day and at night
- intelligent and bright LED lighting system includes brake lights as well as front and rear indicators
- robust body and fixed roof
- hydraulic disc brakes on four wheels
- specially designed front bumper and edge protection on both sides

## Falling off? No way!

Thanks to its four wheels, you will never lose your balance in the U-Mobility CARGO – no matter the weather conditions.

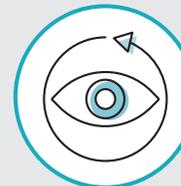

In addition, instead of constantly having to jump off and on your bike when stopping, you can **simply remain sitting comfortably**.

The decisive advantage of the fixed-roof U-Mobility CARGO over the classic two-wheeler:

**It provides significantly improved road safety.**

**We'll show you why!**

## Overview and comfort

Two **integrated rear-view mirrors** can be individually adjusted to the driver's height.

Enjoy **automotive comfort** on the road thanks to an ergonomic seating position combined with a windscreen and roof, as well as a robust and damped chassis that provides a great driving experience and a feeling of safety.

## Better all-round protection

45% of cyclists have almost been involved in a 'dooring accident' at least once.

The U-Mobility CARGO offers superior protection thanks to its **body, upright seating position, windscreen and roof**.
