U·MOBILITY

THE SPACE MARVEL

The PACK cargo bike is a space marvel. You will no longer have to double-park your extra small van. Be it for parcels, letters, food or spare parts, with the spacious transport boxes in a variety of sizes you can transport not only goods, but also an urban spirit.

The cargo bike
that's a van.

TECHNICAL SPECIFICATIONS (PACK)

Vehicle category	Pedelec
Electric motor	Valeo Cyclee Go7
Continuous rated power	250 W*
Torque	130 Nm
Gearshift	7-speed automatic transmission
Max. electrically assisted speed	25 km/h*
Electric reverse manoeuvring aid	yes, up to 6 km/h
Electric starting aid (pushing aid)	yes, up to 6 km/h
Gross vehicle weight	500 kg
External dimensions, vehicle (L x W x H)	2,770 mm*** x 995 mm** x 1,990 mm***
Wheelbase	1,746 mm
Rear body	Box
Truck bed, box 1.3 m ³ (L x W x H)	1,300 mm x 800 mm x 1,195 mm (pallet dimensions)
Truck bed, box 1.6 m ³ (L x W x H)	1,300 mm x 800 mm x 1,495 mm (pallet dimensions)
Truck bed, box 1.9 m ³ (L x W x H)	1,500 mm x 800 mm x 1,495 mm (pallet dimensions)
Box interior volume (in litres)	Choice of 1,300 l / 1,600 l / 1,900 l
Box payload	up to 200 kg
Turning circle	5,500 mm
Rechargeable battery slots	Replaceable battery system with 2 slots (lockable)
Rechargeable battery capacity (per battery)	1.24 kWh (lithium-ion rechargeable battery, 48 V)
Charger	230 V / 4 A
Range with 1 rechargeable battery	up to 50 km
Display	1.9 inch
Suspension	Double wishbone axles at front and rear with spring suspension strut and stabiliser bars
Wheels and Tyres	16" performance wheels with motorbike tyres (80/80-16") and integrated reflector package
Braking system	Hydraulic disc brakes on all 4 wheels
Parking brake	yes
Weather protection	Driver's cab or half screen (optional)
Coating, front screen	yes, with lotus effect
Wing mirrors	2x
Bells	1x
Headlights	2x
Rear lights	2x with integrated brake light
Reflector package	yes
Indicators	yes
Height- and tilt-adjustable saddle	yes
Box lock	yes, manual
Side box door (L x H)	yes, optionally left or right (650 mm x 1,000 mm)
Licence required	no*

In spite of the technical data being subjected to extensive checks, we cannot rule out errors and we assume no liability for the content. All dimensions are approximate. * Subject to national legislation. The European Union has a max. continuous rated power limit of 250 W. Continuous rated power represents a system's maximum effective output generated by the motors over a period of 30 minutes without the temperature rising above a specified value. The maximum – temporary – peak output of pedelegs may exceed this. The use of cycle paths is permitted in most EU countries. The national laws as amended apply ** Not incl. mirror *** Vehicle length at box 1.9 m³ = 2,970 mm. Vehicle height incl. optional weather protection.
